

**Welcome to the
Idaho Adult Basic Education Reporting System
Idaho Management and Accountability System (IMAS)**

The Idaho State Department of Education/Office of Adult Basic Education utilize the Idaho Management and Information System (IMAS) to facilitate data collection and reporting of student enrollments in Adult Educational Programs. IMAS was created for adult basic education programs in Idaho who provide adult education services with AEFLA funding. The information gathered by IMAS will help plan, research and develop programs. This information also helps to support the progress of students and their success in the workplace and other educational areas. IMAS meets all state and federal data collection and reporting requirements.
